Kerrville Comprehensive Plan *A Link To The Future*

Figure 5.5

Wastewater Collection System with Future Improvements

- Lift Stations
- Future Lift Stations
- Manholes
- Water Treatment Plant
- Force Main
- Wastewater Pipeline
- Future Force Main
- Future Wastewater Pipeline (12" min)
- Kerrville City Limits
- ETJ Boundary

Notes:

1. Comprehensive master plan action item involves evaluation of existing interceptors and lift stations to handle flows from future development. Evaluation may indicate a need for improvements to existing infrastructure that are not shown on map.
2. Future interceptor extension sizes should be confirmed based on projected development at time of design.
